Career Objective

Enthusiastic and detail-oriented B.Tech Computer Science student with a strong grasp of software development, problem-solving. Proficient in Html, CSS, JavaScript, Python, and SQL, with hands-on experience in web development, database management, and cloud computing. A fast learner with excellent analytical skills, eager to apply technical knowledge in a real-world environment. Seeking an internship or entry-level role to contribute and grow in a dynamic tech-driven organization."

Technical Skills

- Frontend: HTML, CSS, JavaScript
- Backend & Databases: Python, MySQL
- Tools: GitHub, VS Code, Cloud Platforms
- Technologies: web development, machine learning
- Soft Skills: Problem-Solving, Teamwork, Analytical Thinking

Education

- Malla Reddy Engineering College and Management Science (2023 - 2026)
  Bachelor of Technology - Computer Science & Data Science (CGPA: 7.05)
- Anurag Engineering College (2020 - 2023)
  Diploma in Electronics & Communication Engineering (CGPA: 8.45)
- SR High School (2019 - 2020) 10th SSC (CGPA: 9.8)

Projects

1. Climate change insight: Graphical data representation and analysis
- Created graphical data visualizations to analyse climate change trends, highlighting key patterns and insights.
- Utilized data analysis techniques to inform decision-making and support environmental sustainability initiatives.

2. E-Commerce website Link
- Developed an e-commerce website user-friendly interface.
- Optimized for performance and scalability, ensuring a smooth shopping experience for users.

3. Food remainder website Link
- Created a **Food Reminder website** to help users manage meal schedules and track ingredient expiry dates.
- Designed with user-friendly features to promote better food planning and reduce waste.

Internship Experience

• Web Development Intern | Pantech (Duration: 2 months)
- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, React.
- Assisted in optimizing website performance and enhancing UI/UX design.
- Gained hands-on experience in the full web development lifecycle and deployment.

Certifications & Achievements

- HTM, CSS, JavaScript - Udemy
- MySQL and Relational Databases – IBM Cognitive class
- Data Analytics Job Simulation – Deloitte

Languages Spoken

English, Telugu, Hindi

Hobbies & Interests

- Listening to music for relaxation and inspiration
- Spending quality time with friends and networking

About Me: I am a highly motivated and adaptable individual with a problem-solving mindset and a passion for technology-driven innovation. I am a overthinking person, I will think in all aspects to clear the problems, while my analytical thinking ensures effective problem-solving. I thrive in fast-paced environments, constantly learning and evolving to meet the latest industry standards.
